

## Preparation of Posters

Two posters will be presented per side of a large poster board. The *maximum* dimensions for your poster are 47" square or 120cm square (see diagram below). Your poster does not have to be the maximum size but must stay within the dimensions outlined and should be produced large enough to be read from a comfortable distance (at least 1.5m/~5ft away). Push pins will be provided to attach the posters to the poster boards.

*\*Any posters not taken down by presenters will be made available for pickup near the registration Desk until the close of the meeting. Any remaining posters at the end of the meeting will be recycled.*
